

WELCOME TO ST. THERESA SCHOOL

COMPASSION-RESPONSIBILITY-EXCELLENCE IN LEARNING

COMPUTER

DOREEN SACCO

I started here at St. Theresa's school over 30 years ago. I was the Librarian for grades K-5. I also taught Study Skills for grades 5-8. During those years the Internet and the Digital World were advancing and the decision was made to barcode the entire circulation of library books online.

I began teaching computer classes in 2000 for grades K-3 along with library classes.

Now I teach computer grades K-8.

Computer classes are a fun and engaging experience for all of us.

Facts About My Classroom

- † Attendance and prayers begin each class
