

WELCOME TO ST. THERESA SCHOOL

COMPASSION- RESPONSIBILITY-EXCELLENCE IN LEARNING

(SCIENCE/STEM KINDERGARTEN-8TH)

CRYSTAL R. KACEREC, MSES, MA

Why I became a teacher... After years of working in informal education with zoos, nature centers, and aquariums, I transitioned to a formal school setting. My years teaching in informal settings allowed me to gain subject-specific knowledge and firsthand experience in many of the topics I teach. I enjoy sharing the knowledge and experience I have with others and instilling a love for learning across the ages. I love learning about new subjects and believe that learning is a lifelong journey.

Facts About My Classroom

- † Students Center features an extensive catalog of Scientific American & National Geographic.
- † Engaging themes and classroom transformations to inspire and engage students
- † Classroom pets to assist with the development of empathy, responsibility, and academic curiosity.
